

You only have to know one thing: **You can learn anything!**

LearnStorm is a free 9-week math challenge that celebrates student progress, mastery, and hustle on Khan Academy. Starting January 29th, students in grades 3–12 will earn points for themselves and their school by practicing math online to unlock real-life rewards and recognition. The best way to see your school top the leaderboards is to encourage every student, no matter their level, to get involved.

Nobody
is good at
anything at first.
**Thankfully,
we're born
to learn!**
