

A free, 9-week maths challenge designed to build students' confidence and competence.

From January 29th through April 1st, students from 4th class to 5th year (primary 6 to year 13) on the island of Ireland can master maths skills on khanacademy.org to earn rewards and recognition for themselves and their school.

LearnStorm gives every student a way to succeed, no matter their level.

You only have to know one thing: you can learn anything.

Strengthens maths skills

Students earn points by practicing maths on Khan Academy's personalised learning platform, with thousands of exercises, integrated with hints and videos.

Builds grit and a growth mindset in every student

LearnStorm rewards progress and perseverance equally, giving students of all abilities an opportunity to succeed. Additional weekly Growth Mindset activities engage the creative mind and help students develop effective learning strategies.

For the whole school as well as individual students

Students can work independently *and* as members of their full school team, building school pride and earning recognition.

Simple to get your students going

Students can work on LearnStorm from anywhere, whether it's at home, at school, or at a library. With simple teacher tools to track school and student progress, celebrating is easy.
